INTRODUCTION

This publication presents racial and ethnic enrollment data for institutions of higher education that responded to HEW's Fall 1970 Civil Rights Survey of Institutions of Higher Education conducted by the Office for Civil Rights.

The survey covered institutions located in the forty-eight coterminous states and the District of Columbia. Institutions receiving or expecting to receive some form of Federal financial assistance were asked to report full-time students--defined as persons enrolled and taking credits equal to at least 75% of a normal load--and were instructed to submit individual reports for each geographically separate branch or campus. The method of data collection was left to the discretion of the institution. (The report form used for the fall 1970 survey is reproduced in the Appendix.)

We would like to express our appreciation to officials of the institutions of higher education and to the coordinating officials of the State departments of education for the considerable time and effort they provided in the collection of data and resolution of inconsistencies.

INSTRUCTION SHEET
FOR
COMPLIANCE REPORT OF INSTITUTIONS OF HIGHER EDUCATION UNDER TITLE VI OF THE CIVIL RIGHTS ACT OF 1964 (FALL, 1970)

IMPORTANT: READ THE FOLLOWING INSTRUCTIONS CAREFULLY BEFORE COMPLETING REPORT, AND DETACH BEFORE SUBMITTING REPORT

A. FILING INSTRUCTIONS

This report need be filed only by institutions of higher education which receive, are applicants for, or expect to be applicants for, Federal financial assistance as defined in DHEW Regulation implementing Title VI of the Civil Rights Act of 1964 (45 CFR 80.13). If your institution does not fall into any of these categories, please inform us of this fact. The report is required pursuant to Section 80.6(b) of this Department's Regulation and similar provisions of the Regulations of other Federal agencies.

Please file the following compliance reports:

1. A separate report for the undergraduate school at each main or branch campus.
2. A separate report for each graduate and professional school at the main or branch campus.

   For example, a university with seven branch campuses operating an undergraduate school at each campus would file separate reports for seven undergraduate schools. In addition, if four of the branch campuses had graduate schools, two had law schools, two had medical schools and one had a dental school, the university would file nine separate reports for the graduate and professional schools. Therefore, the university would file a total of sixteen reports.

Complete and return by December 15 the original and one (1) copy of each report to:

Higher Education Coordinator
Office for Civil Rights
U.S. Department of Health, Education and Welfare
Washington, D.C. 20201
Telephone: (202) 963-4418

One copy of each report is provided for your retention in the expectation that the institution will find the information useful and will appraise its own situation with regard to minority group enrollment. All reports for individual schools at separate branches should be returned together in a single package by the parent institution.

Inquiries may be directed to the Higher Education Coordinator at the above address and telephone number.

B. DEFINITION OF TERMS

Part I–Report Identification

1. Institutional Component–the undergraduate, professional or a graduate school at each main or branch campus. A branch campus is a part of an institution of higher education which is organized on a relatively permanent basis (i.e. has a relatively permanent administration), and offers an organized program or programs of at least two years (as opposed to courses) and is located in a community different from that in which its parent institution is located.

   For example–The Agricultural and Technical College at Jonestown (The State University of New Jones).
2. Parent Institution–the college or school of which the institutional component is a part.

   For example–The State University of New Jones is the parent institution for the Agricultural and Technical College at Jonestown.
3. FICE Code Number–the six digit designation assigned to each college or university by the Federal Interagency Committee on Education. A FICE listing can be found in the EDUCATION DIRECTORY, Part 3, Higher Education.

Part II–Student Enrollment Data

1. Report full-time students and do not include full-time equivalents. A full-time student is one who is enrolled and taking credits equal to at least 75% of the normal work load. The manner of collecting the information is left to the discretion of the institution provided the system established results in reasonably accurate statistical data. One acceptable method is a properly controlled system of post-enrollment self-identification by students on an anonymous basis. The data collected should closely approximate official records of the numbers of full-time students reported in the U.S. Office of Education's Higher Education General Information Survey (HEGIS).

   A student may be included in the minority group to which he appears to belong, is regarded in the community as belonging, or categorizes himself as belonging. For the purposes of this report, we require only the reporting of the four specific minority groups indicated in Part II. Spanish Surnamed Americans included persons of Mexican, Central-American, South-American, Cuban, Puerto Rican, Latin-American or other Spanish speaking origin. Do not include foreign students studying in the United States under a student or temporary visa in any of the four minority group categories. Do include them in the All Other Students Column.
2. All Other Students–The remaining full-time students who do not fall within the four preceding columns defined as minority groups.
3. Total All Students–All of the full-time students reported in the five preceding columns.
4. Undergraduate Year Levels–The relative position in which a student is enrolled in a four or five year bachelor curriculum (First Year–Freshman; Second Year–Sophomore; Third Year–Junior; Fourth or Subsequent Year–Senior).
5. Graduate or Professional Year Levels–The relative position in which a student is enrolled in a post-baccalaureate program.
